His patients are from all walks of life, from first-time locals, to celebrities, to those that fly in for his expertise. Dr. Wright considers this to be the golden age of dentistry because what's possible today was yesterday's dream.

Accredited by International Academy of Oral Medicine & Toxicology (IAOMT) and International Academy of Biological Dentistry & Medicine (IABDM), he is on the forefront of biological, holistic dentistry. He removes mercury fillings safely and follows the protocols of IAOMT and IABDM. He protects his patients and employees from mercury vapor and particulate during amalgam filling removal.
