Did you know you don't have to live with acne and acne scars anymore?

Acne is a serious condition that has both a physical and an emotional component. If you or a loved one has acne then you know exactly what I am talking about. That is why we take acne so seriously at the Clear Clinic. For active acne, we utilize cutting edge technology including blue light, photodynamic therapy, and Isolaz laser, in combination with oral and topical prescription medications to deliver excellent results. Many patients see improvement in as little as two weeks. For acne scars, we've pioneered a procedure called Focal Acne Scar Treatment (F.A.S.T.), which utilizes a high intensity fractional CO2 laser to stimulate collagen remodeling to reduce scarring. At Clear Clinic, our commitment is to our patients. We accept insurance and are open evenings and on weekends. We believe everyone deserves to have clear skin and we partner with each patient to develop a customized regimen to address his or her individual needs.

— Dr. Eric S. Schweiger
