

ARE YOU PREPARED FOR SUCCESSFUL RETIREMENT?

Dentists want to know their target retirement number

Seminar Date: Thursday, May 28th, 2015

Location: P.A.C.E
2300 Yonge Street, Suite 901
Toronto, ON M4P 1E4

Schedule:

6:00pm – Registration

6:30pm – Dinner

7:00pm – Lecture

Event Details: Some of the commonly held beliefs are that the eventual sale of the practice and accumulating RRSP's will take care of your retirement needs. These two components make up only a portion of the amount needed to retire, as other strategies also need to be considered. Identify your target retirement number and learn how well structured strategies placed in time will help you achieve a successful retirement, and protect your family should the unexpected happen.

Speakers: TMFD have been working with dentists for over 25 years. We understand that you live busy lives, and coordinating all of your personal and practice financial elements can be a challenge. This is why we provide complete tax and financial planning solutions to make your lives easier. Our trusted team of professional advisors have been successfully implementing Financial Roadmaps to dentists to, "Align Your Practice With Your Life". What sets us apart is that our team works together to coordinate and implement your customized big picture plan, for your interest, ensuring that we save you time and money. This results in you increasing your Net Worth, and allows you to focus your time on your family, your practice and your continued education. This seminar is presented by **Stive Farronato and Chris Molloy**, who have both been members of the Lakhani team for over 20 years each. The seminar discusses the areas dentists need to be aware of to retire successfully, and we welcome you to attend and discover these secrets.
